This is an office action for serial number 10/782,277.

Allowable Subject Matter

The indicated allowability of claims 1 and 2 are withdrawn in view of the newly discovered reference(s) to Irwin, Snowden, or Pompey. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Irwin 2,778,159. Irwin discloses a outer member having rib (10), and inner member having a groove (13), and a shoulder (16).

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Snowden 3,909,066. Snowden discloses a outer member (28) having rib (42), and inner member having a groove (44), and a shoulder (16) and threaded fastener (14).

Allowable Subject Matter

Claims 6-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 11-31 are allowed.

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.
